

Luxembourg, 14 February 2019

Circular CAM 001/2019

Subject: Availability of certificates on CAM's Internet Website

To: All Accredited Shipping Managers, ship owners, ship operators, Masters, designated persons of Luxembourg flagged ships

O/Ref.: AH/110035

The Commissariat aux affaires maritimes wishes to inform you that all certificates issued by this administration can now be viewed on a secured part of our website. A special template will be issued for each vessel registered in Luxembourg providing a direct link to a web page where all the certificates issued for that vessel are available. A QR code also links to that page.

Please note that only newly issued certificates will appear on the vessel's dedicated page, free of charge. Companies may request older certificates to be uploaded for a fee.

Certificates of Registry can only be uploaded once they have been signed by the mortgage registrar; therefore the quicker you send us back the certificate, the quicker it will appear on line.

The URL for each certificate is created randomly and can only be accessed from the vessel's dedicated web page. Without the provided template, it is therefore very unlikely that the vessel's certificates will be accessed accidentally.
